

FAT CHIZELED HANDLEBAR - 55800421 (CHROME), 55800422 (GLOSS BLACK)

FAT CHIZELED HANDLEBAR

FAT CHIZELED HANDLEBAR

Achieve ultimate cutting edge style. The Fat Chizeled Bar features the edgy profile of the classic "Z" bar and combines the hands-up feel of a mini-ape with the narrow width of a drag bar. The result? A classic chopper attitude. When installed with a typical stock riser, this 12" handlebar has the look and feel of a 14" version. The bar replaces mitered and welded corners with cast seamless 90° bends for added strength and style. The cast elbows eliminate sharp internal bends and the bar features removable Bar & Shield plugs to simplify internal wiring. The fat 1.25" bar necks down to fit stock 1.0" vehicle handlebar clamps.

Fits '12-'16 FLD, '13-later FXDB, '16-later FXDLS and '00-later FLS, FLSS, FLSTC, FLSTF, FLSTFB, FLSTFBS, FLSTN, FXST, FXSTB and FXSTC models. Does not fit with heated hand grips. All models require separate purchase of additional installation components.

55800421 Chrome.

55800422 Gloss Black.

NOTE: Installation of handlebars and risers may require a change in clutch cables or lines, throttle cables, or brake lines for some models. All modular lower brake lines listed are based on stock front suspension. Harley-Davidson Motor Company cannot test and make specific fitment recommendations concerning every possible mirror and handlebar combination. Therefore, after installing new mirrors, handlebars, or control cables/lines and before operating the motorcycle, check to ensure that all controls are fully functional and that the mirrors provide the operator a clear view to the rear. Handlebar height is regulated in many areas. Check local laws before installation.
