## HARLEY-DAVIDSON® BACKPACK

### GENERAL

#### Kit Number

94751-08

#### Models

For model fitment information, please see the P&A Retail Catalog or the Parts and Accessories section of [www.harley-davidson.com](http://www.harley-davidson.com) (English only).

#### Additional Parts Required

**Separate purchase** of additional parts or accessories may be required for proper installation of this Backpack on your model motorcycle. Please see the P&A Retail Catalog or the Parts and Accessories section of [www.harley-davidson.com](http://www.harley-davidson.com) (English only) for a list of required parts or accessories for your model.

#### Kit Contents

Table 1. Kit Contents

Description (Quantity)	Part Number
Backpack	Not sold separately
Rain cover	97021-08Y

Do not exceed 25 pounds (11 kilograms) maximum load in the backpack.

- If attaching to a luggage rack, do not exceed the capacity of the rack.
- Be sure cargo is secure and will not shift while riding. Periodically recheck load.
- Ensure that the bag strap buckles are secure.
- Secure backpack straps inside top pocket, keep away from rear wheel.
- See Accessories and Cargo section of Owner's Manual for more information.
- Large surfaces, such as fairings, windshields, backrests and luggage racks, can affect handling. These items should be designed and approved by Harley-Davidson specifically for the motorcycle model and be properly installed.

### INSTALLATION

#### WARNING

**Improper loading of cargo or installation of accessories can affect motorcycle stability and handling, which could result in death or serious injury. (00095a)**

Harley-Davidson cannot test and make specific recommendations regarding every accessory or combination of accessories sold, the rider must assume responsibility for safe operation of the motorcycle when installing accessories or carrying additional weight. Use the following guidelines when equipping a motorcycle or carrying passengers and cargo.

- The gross Vehicle Weight Rating (GVWR) is shown on the information plate located on the frame steering head. GVWR is the sum of the weight of the motorcycle and accessories and the maximum weight of the rider and cargo that may be carried safely.

Do not pull a trailer with this motorcycle. Do not exceed the GVWR as indicated on the frame label.

- Keep cargo weight concentrated close to the motorcycle and as low as possible to minimize the change in the motorcycle's center of gravity. Distribute weight evenly on both sides of the vehicle and do not load bulky items too far behind the rider or add weight to the handlebars or front forks.

Figure 1. Backpack Installed On Passenger Backrest

## Backpack Installation

### NOTE

*Do not mount the backpack to the rear of the passenger upright unless the vehicle is equipped with a luggage rack. Backpack contact with painted surfaces can scratch or scuff paint.*

1. See Figure 1. Disconnect the quick-release buckles on the two long backpack straps from the short straps (3) at the bottom of the backpack. Tuck the long backstraps securely and completely into the open pocket at the top of the bag. Secure with the hook-and-loop fastener.
2. Position the backpack (1) over the passenger seat (pillion, 5) or luggage rack (6) with the shoulder straps facing the passenger upright (4).
3. Separate the hook-and-loop fastener securing the wide strap (2) sections across the lower half of the backpack.
4. Connect the quick-release buckles on the two short straps (3) at the bottom of each side of the backpack to secure the backpack to the bottom of the uprights on each side. Pull the straps tight to secure the base of the backpack to the uprights.
5. Wrap the wide strap tightly around the backrest pad, and secure with the hook-and-loop fastener.

### NOTE

*This bag has a rain cover to protect it from inclement weather when installed on the motorcycle or used as a backpack.*
