EXTREME REACH® HANDLEBAR – 55800563

EXTREME REACH HANDLEBAR (SHOWN WITH CURVED RISER KIT)

EXTREME REACH® HANDLEBAR
Extensively tested with a panel of riders between 5'-0" to 5'-5" tall, this Extreme Reach® Handlebar and recommended riser combination was proven to be the most ergonomically pleasing handlebar for many Dyna® and Softail® models. Shaped to provide the ideal balance of pull back and width, this handlebar produces an overall pull back of 11", and a tip-to-tip width of 30" when combined with Curved Riser Kit P/N 56266-09 *(sold separately)*. Your hands fall naturally in place, and the narrow width reduces your stretch while making low-speed turns and parking lot maneuvers.

55800563

Fits '06-later Dyna (except '14-later FXDL) and '00-later Softail models (except FLSS, FLSTFBS, FXCW, FXCWC, FXS, FXSB, FXSTD and Springer™. Does not fit CVO™ models. All models require separate purchase of additional installation components.

NOTE: Installation of handlebars and risers may require a change in clutch cables or lines, throttle cables, or brake lines for some models. Harley-Davidson Motor Company cannot test and make specific fitment recommendations concerning every possible mirror and handlebar combination. Therefore, after installing new mirrors, handlebars, or control cables/lines and before operating the motorcycle, check to ensure that all controls are fully functional and that the mirrors provide the operator a clear view to the rear. Handlebar height is regulated in many areas. Check local laws before installation.
