

FAT MINI-APE HANDLEBAR - FXSB SOFTAIL® – 55800252 (CHROME)

FAT MINI-APE HANDLEBAR – FXSB SOFTAIL

FAT MINI-APE HANDLEBAR – FXSB SOFTAIL®

Give your ride a touch of old school style with this 1.25" Fat Ape Handlebar. The 12.0" high bar provides the look and attitude you dream about, but remains comfortable during long rides. This Mini-Ape Bar is factory drilled to accept internal wiring for a clean look. Kit includes chrome-plated handlebar, riser and clamp with gauge mount.

55800252 Chrome.

Fits '13-later FXSB models. Separate purchase of additional components required.

NOTE: Installation of handlebars and risers may require a change in clutch cables or lines, throttle cables, or brake lines for some models. All modular lower brake lines listed are based on stock front suspension. Harley-Davidson Motor Company cannot test and make specific fitment recommendations concerning every possible mirror and handlebar combination. Therefore, after installing new mirrors, handlebars, or control cables/lines and before operating the motorcycle, check to ensure that all controls are fully functional and that the mirrors provide the operator a clear view to the rear. Handlebar height is regulated in many areas. Check local laws before installation.
