

Choosing a Backrest

A sissy bar upright and passenger backrest are the starting point to build a complete touring machine. The backrest provides long-range comfort and support and adds a feeling of control and confidence for the passenger. For permanent installation, choose rigid sideplates and a style of upright that suits your riding style. For added flexibility, choose a H-D® Detachables™ Sideplate Kit and appropriate Docking Hardware to make adding or removing a detachable accessory a simple "slide and click" proposition.
